Product and UX/UI Designer dedicated to creating impactful design systems and intuitive user experiences. I have years of experience designing for the B2B and SaaS sector including creating a mobile app, admin portal, desktop app, and web apps for a voice/call, chat messaging, and email channel experience.

Work Experience

ujet.cx – Sr UI Designer

February 2022 - July 2025

- Launched a new mobile app for agents that directly contributed to acquiring at least ~10 new customers, including a multi-million-dollar enterprise contract.
- Led the redesign of products that were adopted by enterprises (e.g., T-Mobile, Instacart, KeyBank, Bell) consisting of 500k agents/users total – enabling millions of daily customer support interactions.
- Partnered with cross-functional teams (designers, engineers, product managers, stakeholders) to white-label our products which directly led to a multi-million-dollar partnership with Google.
- Co-led the end-to-end design of a unified and scalable design system for web, desktop applications, iOS, and Android to support large enterprise-scale adoption with UI components, tokens, and interaction patterns – while ensuring WCAG standards.
- Defined and documented usage guidelines to ensure transparency for designers and engineers.

- Explored and researched solutions to deliver the best user experience with a consideration of available data and industry best practices.
- Presented design rationale and facilitated feedback through wireframes, user flows, rapid iterations, and high-fidelity interfaces with stakeholders.
- Conducted quality assurance checks and provided design QA feedback to ensure delivering high-quality end products.
- Balanced usability and technical constraints in a fast-paced environment with limited resources and scope.
- Contributed thoughtful and constructive feedback for junior designers while sharing knowledge on emerging technologies and trends.

ELL Creative – UI/UX Designer

February 2020 - February 2022

- Shipped responsive websites for multiple customers in the oil & gas, tech, and health sectors (e.g., Memorial Hermann).
- Conducted workshops with clients to understand desired outcomes in the overall brand and user experience.
- Partnered with the UX research team to inform design decisions and the development team to ensure quality with design QA.
- Produced digital marketing materials for web and social advertising campaigns.
- Optimized the internal web process between all teams which improved collaboration and communication.

Pennebaker – Designer

September 2015 - February 2020

- Shipped B2B responsive websites that increased usability and lead-generation for multiple clients in oil & gas, energy, and tech industries.
- Conducted workshops with clients to align on desired outcomes in the overall brand and user experience.
- Partnered with the UX research team to inform design decisions and the development team to ensure quality with design QA.

- Produced digital visual and motion assets for web, social, email advertising campaigns.
- Trained the broader organization in our internal web design process.

Versa Creative – Graphic Design Intern

May 2014 - May 2015

- Designed and prepared logos, social media, print collateral, and web for multiple B2C retail clients.
 - Completed projects under tight deadlines in a fast-paced environment.
 - Collaborated with a team of designers, copywriters, and account managers.
-
