Product and UX/UI Designer dedicated to creating impactful design systems and intuitive user experiences. I have years of experience designing for the B2B and SaaS sector including creating a mobile app, admin portal, desktop app, and web apps for a voice/call, chat messaging, and email channel experience.

Experience

ujet.cx

Sr UI Designer | February 2022 – July 2025

- Launched a new mobile app for agents that directly contributed to acquiring at least ~10 new customers, including a multi-million-dollar enterprise contract.
- Led the end-to-end redesign of products that were adopted by enterprises (e.g., T-Mobile, Instacart, KeyBank, Bell) consisting of 500k agents/users total – enabling millions of daily customer support interactions.
- Collaborated with cross-functional teams to white-label our products which directly led to a multi-million-dollar partnership with Google to resell our product suite.
- Owned and maintained a unified design system for web, desktop applications, iOS, and Android to support enterprise-scale adoption – while championing WCAG AAA standards and detailed documentation.
- Presented design rationale and facilitated feedback through wireframes, user flows, and high-fidelity interfaces with stakeholders.
- Contributed thoughtful and constructive feedback for junior designers while sharing knowledge on emerging technologies and trends.

ELL Creative

UI/UX Designer | February 2020 – February 2022

- Shipped responsive websites for multiple customers in the oil & gas, tech, and health sectors (e.g., Memorial Hermann).
- Conducted workshops with clients to understand desired outcomes in the overall brand and user experience.
- Partnered with the UX research team to inform design decisions and the development team to ensure quality with design QA.
- Produced digital marketing materials for web and social advertising campaigns.
- Optimized the internal web process between all teams which improved collaboration and communication.

Pennebaker

Designer | September 2015 – February 2020

- Shipped B2B responsive websites that increased usability and lead-generation for multiple clients in oil & gas, energy, and tech industries.
- Conducted workshops with clients to align on desired outcomes in the overall brand and user experience.
- Partnered with the UX research team to inform design decisions and the development team to ensure quality with design QA.
- Produced digital visual and motion assets for web, social, email advertising campaigns.
- Trained the broader organization in our internal web design process
